On the Road to Find Out

Well I left my happy home to see
what I could find out.

I left my folks and friends with the
aim to clear my mind out.

Well I hit the rowdy road, and many
kinds I met there,

Many stories told me of the way to
get there.

The seconds tick the time out, there's
so much left to know,

And I'm on the road to find out.

—Cat Stevens

BEAUTY AND THE BEAST

I visited Walden one Halloween
And saw stranger sights than I ever have seen,
A mass of weird creatures stalking the halls,
I saw everything from witches to dolls.

And as I crept down the long, damp hall
I was seized by a vampire, ghastly and tall.
Her cackling laughter shuddered deep in my bones.
And as darkness closed in, I prayed to go home.

Sam was a gangster in the 1920's,
If money was the question, he always had plenty.
Robbing banks was his specialty,
He pulled so many it was as if he had a key.

A red-caped sorcerer studied his books.
Had he marked Flanagan with those strange looks?
A ghastly white figure circled the room,
Its white face casting about looks of doom.

Linda was dressed for intensive combat.
There was a brew boiling in a large vat.
I tasted the brew which was made for tea.
Then I discovered that I could not see.

My face turned white like never before.
Shadows of figures grew on the floor.
Hands clasped my shoulders and turned me about,
Ending my life like a candle blown out.

MAIE LOAR DIRECTOR

"A letter — for Marie???"

Marie conceived and created Walden and has been the director for ten years now. When asked what her philosophy for the school is she says, "Learning cannot be meaningful until you know and like yourself. Therefore, the student at Walden is valued and appreciated as a person and is given personal responsibility for learning."

Marie holds an A.B. from William Jewell College, and M.Ed. in counseling from N.T.S.U., has done post-baccalaureate work at the University of Tulsa, University of Houston, and S.M.U. This year we are proud to announce that Marie is a candidate for a PH.D. in secondary education from N.T.S.U.

Marie lists her hobbies as golf, cooking, and her grandchildren which take up, pleasantly, a great deal of her time.

*"I'd rather be sorry
for something I've done
Than for something
that I didn't do."*

WALLY LINEBARGER

Smile!!

Sarah's gonna 'love this'

"You broke whose poll?"

This is Wally's fourth year teaching art and ceramics, and he's added a Spanish class this year. Wally has an incredible amount of energy which he uses to sing in his car, dance in his bathroom, and roller-skate on the wheel in order to excite his students into working. Wally has a B.F.A. in Art Education and an M.F.A. in Art Education from S.M.U.

Wally's hobbies (and we quote) "are playing his guitar, writing music, cooking, laughing, singing in his car, water-skiing, jogging, and playing with Sarah," (Who's she?)

"My goal is to become the whole person God intended me to be — He may lead me to the highest peaks or through the darkest valley in order that I may know Him better . . . Walden has been a part of this process . . . tomorrow? I will tell you then."

*"They say that these are not the

But they're the only times I've ever
known
And I believe there is a time for
meditation
in cathedrals of our own . . ."
— Billy Joel*

KAREN DIANE HUNDAHL

A warm fuzzy day in human development.

Completing two years as guidance counselor, and teaching human development and group dynamics, Karen has, among other things, designed a career guidance program. Karen has a B.S. in Education and an M.Ed. in Counseling from N.T.S.U. Her most important contribution to Walden may be teaching people to be able to show more affection toward others and themselves. Karen enjoys camping, traveling, assertive training, growing plants, and spiritual development. Karen says her goals in this lifetime are to "attain a Ph.D. in Marriage and Family Counseling, get married, have one or two children, acquire peace of mind, continue to develop a changing variety of interests, continue to change, grow, evolve, and to learn more and more to love and accept others."

"There's a wide wide world
of noble causes
And lovely landscapes
to discover."

— Joni Mitchell

SANDI McKEAN GOODIN

beg your pardon

This is Sandi's third year at Walden. She teaches English, language retraining, and coordinates the Work Experience Program. She holds a B.A. in Psychology from Biola College and will receive her language therapist certification from Dean Memorial Learning Center and Scottish Rite Hospital in August, 1979. She's also working toward an M.S. in Special Education and Guidance Counseling from E.T.S.U

Sandi recently married Rick Goodin. They would like to have two children and redecorate an old house to live in. Some of Sandi's personal goals are to earn a Ph.D. in Psychology and be part of an educational and psychological clinic here or overseas. She would also like to travel around the world to learn about different lifestyles.

*"Sometimes, not often enough
We reflect upon the good things
And our thoughts always center around
Those we love.*

*And we think about those people
Who mean so much to me
And for so many years have made me so
very happy.*

*And I count the times I have forgotten to say
Thank you, and just how much I love them."*

STEPHEN HOUPT

Steve that can't let go

"Uh-ohhh, Stephen!"

Steve's usually weird physics demo.

This makes three years at Walden for Stephen Houpt. He teaches math, physics, yoga, and gardening. Besides being head of the math department, Stephen designed his own physics course in which he uses practical demonstrations to illustrate the concepts covered every day. Stephen received a B.A. Degree in physics from Lafayette College and has done graduate work at U.T.D

Stephen's hobbies include yoga, gardening, taking walks, camping, writing poetry, and ping pong. He also plays the guitar, harmonica, and dulcimer.

His goals in life are "To take it as it comes and to attain enlightenment."

*"May the long time sun shine upon you,
all love surround you,
and the pure light within you,
guide your way on."*

— The Incredible String Band

LINDA SHASBERGER

"But, Colleen, you can't write that for the year-book."

Somehow, Linda has been able to withstand Walden's insanity for an incredible nine years. She must have some kind of amazing patience. This year she's teaching English, creative writing, and filmmaking. She has a B.S. from Southwest Missouri University, an M.A. in English from N.T.S.U. and 25 hours toward a Ph.D. in Education from N.T.S.U.

Linda enjoys reading, writing, and learning with her young child, Jenni. Linda says, "I see vaguely a future of writing — maybe teaching in a college, but the image is vague because right now I'm content being where I am."

"I've been going for some time now.
Along the way I've learned some things.
You have to make the good times yourself —
Take the little times and make them into
big times,
And save the times that are alright
For the ones that aren't so good."

LARRY STONE

Studying Biology from the outdoors in.

This is Larry's second year teaching at Walden. His classes include general science, biology, survival, math, metalogues, and woodworking. There's an underground movement organizing the Larry Stone Fan Club — so far made up of the people he takes camping!? Besides spending a lot of time in the woods, Larry has done three years of graduate research at N.Y.S.U. in microbiology.

In his spare time (when he's not writing lesson plans) he likes camping, woodworking, writing poetry, and reading. Goals in life? Larry says he would like to walk the Appalachian Trail, buy a few acres of timber land, and build his own house.

"There is no one who can show you the road you should be on. They only tell you they can show you and then tomorrow they are gone."

— Judy Collins

There you go, Mary."

And they all lived happily everafter.

Paula started late this year (during the second quarter) taking up where Carlton left off teaching American history, and government. Paula came to Walden with a B A. in psychology, history, and English and an M A. in secondary education from Austin College.

She enjoys reading, writing, poetry, and bowling. She also spends a lot of her time working toward a special reading certificate at N T.S. U

Paula hopes to teach kids and be happy (not necessarily in that order.)

*"All I want

MICHAEL FLANAGAN

The first quiet moment all day!

Taking Mike's desk is a school offence.

Michael has been at Walden for nine years teaching drafting and math. He also fills the very important position of being the school's business manager. In the past couple of years Michael has surprised us all with his very strange sense of humor. What do you expect after nine years at Walden? Michael received his B.S. degree in industrial arts from N.T.S.U

Some of Michael's hobbies include reading, gardening, and drawing. He also works part-time at a bookstore. One of Michael's goals is to someday "open a little bookstore when I retire."

*"I don't know much about algebra —
Don't know what a slide rule is for."*

— Art Garfunkel

Thinking about money again!

SUSAN BOWYER

Susan Bowyer is teaching for her first time at Walden this year. She teaches math. Her strong point seems to be getting students motivated in math. She received a B.A. in psychology and biology from Southwestern University and an M.S. in counseling and guidance from E.T.S.U. She is working toward an Ed.D. in counseling at E.T.S.U.

Susan had a six-year-old child, Shannon, and enjoys backpacking, canoeing, swimming, bicycling, playing pool, growing sprouts, jamming, natural cooking, and telepathy.

Susan says, "I want to become experienced in other cultures through travel, and I want to live in the mountains by the sea somewhere and raise my family with goats, doves, honey bees, and gardens to allow us the uninterrupted practice of creative living and spiritual richness."

"And take me down to the harbor now
Grapes of the summer are low on
the bough
Ghosts of my history will follow me
there
And the winds of the old days will
blow through my hair."

— Joan Baez

Come on Nite you can do it

"Let's see . . . for supper we can have bat wings, corn sprouts

"That

Ms.
Pamala

Pamala has been at Walden for four years. She teaches photography, world history, English, yearbook, and photoart. She has a B.A. in English literature from the University of Houston, and is working toward an M.A. in counseling from E.T.S.U.

Although she spends most of her time trying to undermine the workings of the Larry Stone Fan Club and singing harmony with Wally in his car, Pamala likes to read, camp, listen to music, and write poetry. She also leads a feminist consciousness raising group at the federal prison in Ft. Worth. Her goals? She says, "To be happy, to continue teaching young people, to live in the country in my own home, and to work toward the goal of all human beings being assured of equal rights. To be able to say when I die that I helped to assure those rights to all people — women, men, and children. To be able to say that my life was significant in bringing about some positive changes."

*"In search of love and music
My whole life has been
illumination
Corruption
And diving, diving, diving, diving,
Diving down to pick up an every shiny thing
Just like that black crow flying
In a blue, blue sky."*

I entered, stared, and realized that I was not
Different from the rest, no body was. We all seemed
To be brothers and sisters, sharing an illusion
Together. Not caring what each other looked
Like, nor what each other felt, we were here
Waiting for the illusion to begin.
The music started, I sank in my chair. I felt
Happiness surround me, laughter echoed in my
Ears.
It had begun, silence broke, and music
Played mellow in my soul.
It was not long before my body left me, and
Projected itself on the stage.
I played, for what seemed like minutes, but
Hours had passed.
I lent my voice to the crowd, my people, my
Brothers, the public, they answered my songs by
Standing, clapping, and yelling for more.
Lights kept on flashing in my face, shining on me
As if they were proving to the crowd that this
Is what they came for.
I dared not stop, for I may disappoint my
Brothers. I had put myself here and now, I had
To do what I came for, prove myself, and not
Destroy the illusion that everyone so eagerly waited
For.
Now I was a god, not a brother, but someone
They all looked up to.
Then, my music ended.
Proud of myself for proving to myself that
I was capable
I looked at them, they looked at me, shouting, and
Raising their hands, begging for me to play one
More.
I bowed, then I lifted my head, and in raising
My arms I yelled:
"You're beautiful, Love you all."
And then disappeared into the fog.

Country Vs. City

Noise, noise, noise
All I hear is noise
The usual depressing city noises,
Cars honking, construction going on everywhere,
Traffic noises, the spine-tingling sound of
Metal on Metal,
Seeing actual human lives being taken in
Car accidents every day.
It's gotten so that you can scarcely hear
The birds anymore for all the gloomy
City noises.

Almost all cities are drowning in cement
Now.
About the only grass you see in a city
Anymore is either astro-turf or it's in
Your own backyard.

When will this society release me from
My prison of cement?
Oh how I long to hear the soothing
Country sounds
The mooing of the cows,
The call of the coyotes,
And the gently neighing of a horse in its
Stall instead of in a hunk of dog
Food.

Instead of longing to see more apartments
And department stores being built,
These big presidents of companies should
Long to smell wheat just after it's been
Harvested, to see a calf becoming strong,
That you helped deliver.

Man, just imagine being awakened at
Dawn by a rooster,
Starting your day when the sun starts its.

You could find such peace of mind in the country.

I can tell you right now, it would be a
Lot better to look out your bedroom
Window and see a vast space of land
That you own, than to see a vast
Space of brick wall that some jerk
Owns.

If for once someone would follow
A dream or two, instead of living
Of living on a routine timeclock, maybe
The world would be a lot better.

Oh what it would be like to be free.

Giving up on life, and failing to accept what
This world brings to you,
Feeling sorry for yourself, because your children

You, whose sleeping forms stir so much,
 For you there'll always be tomorrow.
 It's two in the morning
 And you're finally asleep
 All curled up around me
 And the fire we built this afternoon.
 Just me, and the wilder ones
 Are left still awake
 Listening to the wind
 Shake the loblolly pines
 Which are steadily climbed by the moon.
 Nothing lasts forever.
 Now I hear the river
 On its way to the Sabine
 And 'coons fishing hard
 In the freezing water.
 And in this I am alone.
 It's a hard thing to share.
 How a murky river can be
 A puddle of moonlight
 And cold nights make the stars twice bright.
 Or how a deer's death is not ugly
 Because of the bugling wolves.
 Perhaps we no longer need learn
 How unforgiving the earth is —
 Yet constant and elegant.
 A lesson our ancestors learned repeatedly.
 And it's here, right here.
 We are guests in a bit of eternity.

Whose child is this, cried the robin to the tree?
 He has no cover to warm his flesh.
 Is this what humans call free?
 He's thin and looks hungry, and there's dirt on
 His face, who would leave him to starve,
 What a human disgrace.
 He's weak now, and he wanders, he's lost now
 He falls, aren't humans ashamed, is it no
 Concern to them at all?
 We mourn now the death, of this unwanted
 Child, uncared for by humans. He died with
 A smile.

 One dark with awesome energy.
 And the luminous energy of one
 Feeds the dark strength of the other,
 While its mass draws them together
 Causing the first to pulse.
 Twinned now, and bound
 In time to become one.
 Proving to me, that better symbols
 May be found than those contrived.
 From now on, I will think
 Of a special sort of love whenever
 I catch a star quietly pulsing.*

*There's someone here to listen
 No matter what I say
 If I'm wrong then I'm corrected
 In a gentle sort of way —
 No one hurts my feelings
 They know. We all can't be the same
 I'm respected for the man I am
 But reminded I can change —
 Teachers can relate to me
 They show me how they feel
 Make me understand them
 Help me to figure what is real —
 I remember reading "Love Your School"
 many years ago
 I wonder if I'd finish
 Cause it really hurt to go —
 But before I saw the problem
 Someone had a dream
 After hope and dedication
 Walden, came to be.
 Now that I am moving on
 I hope that you all know
 Walden's a special place for me
 And my love can only grow.*

Pencil and Ink Drawing

Some — an old man — stood behind a podium
And smilingly assured his listeners that
these times were only a phase —
they would pass —
youth would age
idealism would fade into conformity

I became angry —
and then I laughed
the old man was a blind fool
We were going to change the world —
This time.

I think of you, old man —
Standing in the fluorescent supermarket aisle
weighing the price of grapefruit
with the same fervor

I once gave to thoughts
of war
and peace
and love
and human freedom.

The Age of Aquarius is an old song.

Oh, I like to think I'm . . .

And in the corners of my mind
I still cling with slipping fingers
to a fading image

Of a better world

With better people

And flowers — Lots of flowers

Oh — and I still wear my "peace" ring
(but then it's too tight to remove)

No wonder you were smiling, Mister —
You knew.

— Linda Shasberger

I cried on your shoulder
 That once . . .
 That evening, with that music
 And in that light
 All was clear to me, finally,
 In that lightlessness.
 Funny, but the blue rose
 Faded and gathered dust —
 It became clear, finally.

I noticed you,
 Walking down the street
 I stared at you,
 You seemed much different than others to me.
 I thought of you,
 You seemed to have failed in making your life
 The way you wanted it to be
 I have hurt you,
 Ignored you
 And now you seek revenge.
 I looked for you
 And found you everywhere.
 I have studied you,
 And found you are the same as me.
 You are my brother,
 But you are black.

Lonely

To be lonely,
 What does it mean?
 Aloneness, self-pity?
 I don't understand.
 I'm loved, and I love,
 But I'm still lonely.
 Why must I live by myself,
 And sleep alone?
 It's not fair.
 It wasn't meant to be this way,
 Or was it?
 I don't understand,
 Whatever it is,
 I will find it,
 But I will find it alone.

A Summertime Love

*That first time she saw him
And he saw her
Was when all the flowers were
in bloom
The birds were singing and it
seemed you could see every
blade of grass grow
Their love for each other bloomed
and grew as if it were a part
of nature herself
Hand in hand and heart and heart
their love for each other
Their kind of love is
everlasting
These two people were in an
eternal love
They will always care for each other
When that summer ended for
everyone else
Their special summer went on
forever*

*In the last of all clouds
The stone with the star runs round
Pulling sadness down
The way the wind blows
The way the rain
Fall's the best time of the year.*

*Flashes of slate run
From your eyes
But once there I realize
It's not the keeping
But the getting
Close to the edge.*

*One thin band
Between the violet and gold
Warns of stones, tales too-told
For another ambition
For lost chances at
Cantering, the dream ran away.*

*Venetian slats against the sun
Allow the glimmers and peals
Of not-ones, shrill's
The message for all listening
Without the strain of
Hearing the symphony, I slept.*

Dedication

Wally Linebarger

After having taught at Walden for four years, we have come to both respect Wally for his integrity and appreciate him for his genuine humor and compassion. No one makes us laugh more or work harder to achieve the goals we choose. We thank you, Wally, for allowing us the opportunity to get to know you and to love you. And we thank you for loving us.

Linda Shasberger

There's often one teacher who stands out in the memories of those of us who have the opportunity to experience Walden. For many past graduates and for those of us on this year's annual staff, that teacher will certainly be you. We can never express adequately the appreciation we feel for you because you were truly yourself and always honest and caring. You have touched our lives and we are grateful. We love you.

With our most sincere appreciation and our deepest love, we dedicate this yearbook to you both, Linda and Wally.
